## **SUPPLEMENTARY INFORMATION:**

### *I. Abstract*

Executive Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. In order to work continuously to ensure that the Department of Commerce (DOC) programs are effective and meet our customers' needs we use a generic clearance process to collect qualitative feedback on our service delivery. This collection of information is necessary to enable DOC to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with our commitment to improving service delivery. The information collected from our customers and stakeholders will help ensure that users have an effective, efficient, and satisfying experience with the programs. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between DOC and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance.

### *II. Method of Collection*

The methods of collection include but are not limited to in-person surveys, telephone interviews or questionnaires, mail and e-mail surveys, web-based products, focus groups, and comment cards.
